ART SHOW // AUGUST 8, 2019, 5PM-8PM // CIBOULETTE ET CIE

*The North Simcoe Rotaract Club welcomes you to an evening of beautiful artwork, craft beverages, hors d'oeuvres, good company, and good conversation. This art show is being held as an opportunity to showcase local artists and to create awareness and support for the *Safe Cycle Project* and *Huron Transition Homes*.*

We hope to bring to life the theme and conversation of *Life Cycles*. Life Cycles of the physical and natural world, weather and the earth's ecosystems, and of the human body. As well as the ones that we create for ourselves through social and cultural rituals.

We have asked artists to consider our relationships with these cycles, the debate of Nature vs. Nurture, and the possibility of these concepts co-existing to promote mutual respect for one another. We ask if this connection perhaps enables us to aid one another in reaching our full potential as human beings in developing a healthier and more positive universe.

This show will be a safe space for artists to create noise, chaos, flow, and peace in their work. We hope to stimulate and nourish the cycle of these conversations.

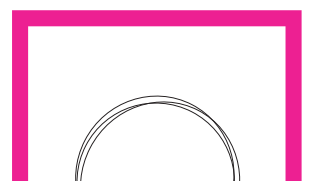

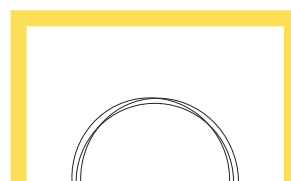

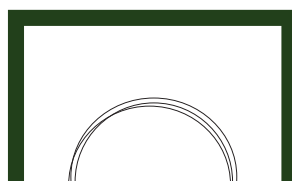

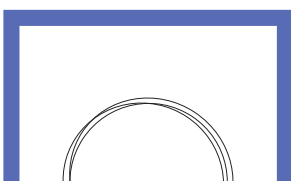

All artwork, from a wide range of visual mediums, will be on display for the duration of the show and available for purchase through a virtual silent auction. The proceeds from the art sales will be collected by the respective artists, that of which each artist will donate a minimum of 50% to *Safe Cycle Project* and *Huron Transition Homes* collectively.

Tickets will be available for purchase in July.

THE BENEFICIARIES

The Mission of Safe Cycle Project

Founded in 2018 by Midland resident, Katelyn Stanley, *SCP* is a non-profit focused on supporting local homeless shelters, currently *The Guesthouse* and *La Maison Rosewood*, by providing menstruation products as well as various forms of contraceptives to promote safe, consensual sex.

When donations are made to shelters, menstruation products often get overlooked. These paper products are very essential to female hygiene, and they aren't offered without cost. The goal is to maintain a consistent flow of these products to those in our community who are in need. People helping people, period

The Mission of Huronia Transition Homes

HTH is a non-profit organization working to end all violence against all women. Marking its beginning in 1984, *HTH* now operates four primary programs: *La Maison Rosewood Shelter*, *Athena's Sexual Assault Counselling & Advocacy Centre*, *Choices for Children* and *Operation Grow*.

Working within an intersectional feminist, harm reduction philosophy, *HTH* is committed to providing shelter, counselling and support to women identified individuals and their children who have experienced abuse.
